Summary

I'm a 19 years old design-minded front-end developer. I am highly motivated and very imaginative by finding inspirations in everyday things, pushing my own boundaries and allowing myself to think out-of-the-box.

Skills

HTML5 | CSS | SASS | Bootstrap 4 | Website Optimization | jQuery | Javascript | Web Design | Git/ Github | GSAP | Netlify | Figma | Adobe XD

Experience

Afrosteak / Web Developer

Oct 2020 - Contract, Ile-Ife, Osun

- Designed, implemented and monitored web pages, responsiveness and functionality for continuous improvement.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript coding.
- Worked with the Business Owner to synchronize web presence with brand identity and logo.
- Deployed the site onto the internet using Netlify.
- The business was able to make 32% more profit than the previous year thanks to a strong online presence.

SheCodeAfrica / Mentor

Nov 2020 - Jan 2021, Remote, Abuja

- Provided stability and positive reinforcement in conversations to build strong rapport and trust with mentees.
- Gave mentees weekly projects to help strengthen the knowledge they got from learning.
- Developed a learning path for my mentees to guide them.
- At the end of the Mentorship programme(approximately 8 weeks) they had sufficient knowledge and practice in building a website from scratch, terminologies in web development, version control, and how to host on platforms like Netlify.

Jomail / Front End Web Developer

Jan 2021 - Present, Remote

- Culled knowledge of industry trends and technology innovation to improve marketability, reach and workflow.
- Drafted design timeline specifications to create accurate project deadlines and set budgetary metrics.
- Worked with Senior Software Engineer to define web project scopes that meet organizational initiatives and demand.

OAU Computer Centre / Software Engineer Intern

Jan 2020 - Mar 2020, Ile-Ife, Osun.

- Designed the architecture for the submission process of documents online.
- Worked with 2 other interns on building the interface for the Website project we worked on, which eased the burden of having to submit confidential documents in person by the users.
- Drafted up a business plan to monetize the largest parking lot in the whole campus which led to a 20% increase in revenue to the department.
- Increased my knowledge on web development technologies by completing a course on Udacity
- Took online tutorials to learn about Unified Modeling Language(UML), class diagrams and learned how they work to simplify architectural development which was required.

Education

Obafemi Awolowo University / BSc. Sociology and Anthropology

Sep 2018 - Dec 2022 (Expected), Ile-Ife, Osun

While pursuing a degree in Social sciences, learning about how the world of people works, I made friends with students in tech who inspired me and introduced me to several learning platforms which caused me to start my journey in Programming and Software Development.

Online Courses/Certifications

Mobile Web Specialist / Google Africa Developer Scholarship

May 2020 - December 2020

Responsive Web Design / freeCodeCamp

Sep 2020 - Nov 2020

Fundamentals of Digital Marketing / Google Digital Skills for Africa
